A-Tops Vermiculite Because Your Pool Deserves The Best

40 LB Bags
50 Per Pallet

A-Tops
Skimm Coat

- ***Formulated for the Replacement Liner Specialist***
- ***Good for Resurfacing Entire Pool Bottom or Spot Patching***
- ***No More Watering Down V-lite Mix to Thin it out***

A-Tops Skimm Coat was the brainchild of Jerry Austin, the owner of J.P. Austin/A-Tops vermiculite company, and introduced to our customers in 2020. After thirty years attending trade shows and hearing the same complaints about vinyl liner pool renovations and the need for a product that could be applied as thin as 1/8th of an inch for spot jobs or thicker application for whole pool restorations, Jerry spent five years assembling a group including in-ground pool professionals, vinyl liner replacement specialists, and industry consultants to formulate a product that could be easily skimmed down for spot applications as well as whole bottom restorations. Skimm Coat has been met with very positive feedback and increasing demand from installers.
